

## **Healthcare**

IN CASE OF LIFE-THREATENING SITUATIONS: CALL 112

### **Do you have a minor healthcare problem? Or do you want to see a General Practitioner?**

Visit the first aid post. There you can go for advice, a band-aid or bandage and a listening ear. Here you will also find a nurse or doctor's assistant who will help you if you need any further assistance. He/she will also provide you with a referral to a doctor.

You can also come to the first aid post for a COVID-19 self-test.

The first aid post is opened daily from 17:00-19:00 o'clock.

Location: Walk-in at The Klifweg 12

### **General Practitioner healthcare**

The referral to the doctor goes through the first aid post.

Location: Walk-in at The Klifweg 12

### **Urgent complaints**

In case of urgent complaints that are not life-threatening: do **not** call 112!

In case of urgent complaints you can contact the location manager or the reception.

Together you will call the doctor. The doctor will determine whether you can come or that you will have to wait.

During the day, the general practitioner is at Urk.

In the weekend, in the evening and at night, the general practitioner is in Emmeloord. Someone will take you to the doctor.

### **Midwifery**

Are you pregnant? And do you need obstetric care? The location manager, the reception and the first aid post can call the midwife together with you.

### **Dental care**

Do you have an urgent problem with your teeth? The location manager, the reception and the first aid post can call the dentist together with you
